

# MP1890F

Ramie Fibre Packing | Inter-braided | Impregnated with PTFE & Silicon Oil

## FEATURES

MP1890F is a long ramie fibre which is square and thoroughly impregnated with mineral grease and PTFE (or tallow) to make the packing pliable and resilient. A very white packing suited to use in the mid range of pH.

## TECHNICAL INFORMATION

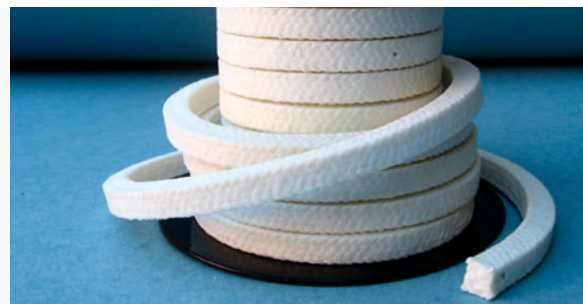

Construction	Inter-braided
pH Value	5 – 9
Temperature	-50°C to +140°C
Pressure	150Psi (1050Kpa)
Speed	2000 FPM (10m/sec)
Colour	White
MSDS	Available upon request

## AVAILABLE SIZES

**STANDARD THICKNESS** 8m rolls

**STANDARD ROLL SIZE** 3mm x 3mm through to 25mm x 25mm

Cut lengths, strips and custom shapes are available upon request  
Larger coils & sizes available upon request

## APPLICATIONS

MP1890F is ideally suited for use in the less demanding applications. It can service:

- > Pumps
- > Valves
- > Plungers
- > Seal hot and cold water and brine

It is especially suitable for marine use. It is also suitable for use in oils and solvents. This packing has a good resistance to: mildew, fungi and bacteria. Suitable for rotary, reciprocating and static service.
