PREFORMED VALVE PACKING RING SETS

The 45° scarf cut and preformed shape of each ring improves sealing compression and performance, without the need to cut or prepare each ring yourself.

Industrial Gaskets preformed valve and pump packing ring sets are accurately cut and preformed Gland Packing rings allow for easy and time-saving installation, as well as the consistency of sealing performance.

Industrial Gaskets can manufacture preformed rings to your specific dimensional and application requirements.

The dimensions outlined in the diagram below are required to provide pricing
