

DONIFLON® 2020

DONIFLON® 2020 is structurally enhanced PTFE gasket sheet filled with silica. It has outstanding chemical resistance to various media, same as DONIFLON® 900E; especially recommended for inorganic acids in all concentrations, except hydrofluoric acid. This material has enhanced creep performance compared to plain PTFE material. It is recommended for pharmaceutical and food industries as well as LNG & cryogenic applications.

PROPERTIES

APPROPRIATE INDUSTRIES & APPLICATIONS

0	GENERAL PURPOSE	3	PHARMACEUTICAL INDUSTRY
	POTABLE WATER SUPPLY	41	FOOD INDUSTRY
	STEAM SUPPLY	辮	REFRIGERATION AND COOLING
(1)	GAS SUPPLY	,	COMPRESSORS AND PUMPS
	CHEMICAL INDUSTRY		VALVES

PETROCHEMICAL INDUSTRY

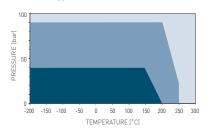

Composition	PTFE, silica
Color	Pink
Approvals	BAM (Oxygen); EN 12308 (LNG & Cryogenic applications); EU No. 10/2011; FDA

TECHNICAL DATA Typical values for 2 mm thickness

Density	DIN 28090-2	g/cm³	2.1
Compressibility	ASTM F36J	%	7
Recovery	ASTM F36J	%	45
Tensile strength	ASTM F152	MPa	14
Stress resistance	DIN 52913		
30 MPa, 150 °C, 16 h		MPa	13
Specific leak rate	DIN 3535-6	mg/(s·m)	0.002
pH range			0-14
Operating conditions			
Minimum temperature		°C/°F	-200/-328
Maximum temperature		°C/°F	260/500
Pressure		bar/psi	80/1160

P-T DIAGRAM

EN 1514-1, Type IBC, PN 40, DIN 28091-2 / 3.8, 2.0 mm

- General suitability Under common installation practices and chemical compatibility
- Conditional suitability Appropriate measures ensure maximum performance for joint design and gasket installation. Technical consultation is recommended
- Limited suitability Technical consultation is mandatory

P-T diagram indicates the maximum permissible combination of internal pressure and service temperature which can be simultaneously applied for a given gasket's thickness, size and tightness class. Given the wide variety of gasket applications and service conditions, these values should only be regarded as a guidance for the proper gasket assembly. In general, thinner gaskets exhibit better P-T properties

Sheet dimesions

Size (mm): 1500 x 1500 Thickness (mm): 1.5 | 2.0 | 3.0

CHEMICAL RESISTANCE CHART

The recommendations made here are intended as a guideline for the selection of a suitable gasket type. As the function and durability of products are dependent upon a number of factors, the data may not be used to support any warranty claims. If there are specific type-approval regulations, these have to be complied with.

- Recommended
- Recommendation depends on operating conditions
- Not recommended
